REMARKS

RETURN TO CIA
LIBRARY

25X1X

1. At a conference held at the Soviet Zone Directorate General, Railroads, on 23 June 1951, the representatives of all regional railroad headquarters were informed of an CCC directive, which ordered an immediate end to the scrapping of locomotives. No reason for this order was given. *

2. On 13 June 1951, it was learned at the Berlin regional railroad headquarters that the railroad depot in Berlin-Lichtenberg would soon receive enough materials to convert about 500 boxcars for troop transportation purposes. **

* 25X1A Comment. The scrapping of locomotives beyond repair was reported previously. See 25X1A. It remains to be seen whether efforts will be made to repair these locomotives, most of which suffered heavy damages during the war.

25X1A

** 25X1A Comment. The total stocks of such equipment available as of November 1950 and the excessive wear and tear to which this equipment is subjected was reported previously. See 25X1A. The report does not indicate whether the materials concerned were allocated from these stocks or newly manufactured.
